Plugin Installation Instructions - Global Key and Input Monitoring
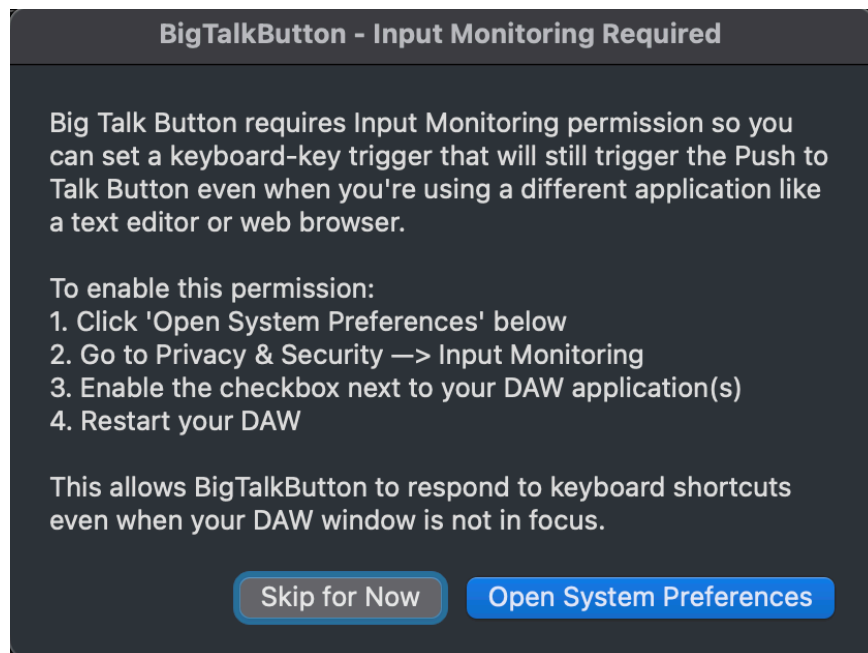

Big Talk Button features Global Key keyboard triggering of the Push to Talk Button. This means your chosen trigger key will engage the Push to Talk Button even when you're not using your DAW - for example, if you're using a text editor, web browser, or communications app like Zoom. In order for Global Key to function, it must have Input Monitoring permissions on your computer. When you run the Big Talk Button installer, this window will appear:

Follow the instructions to enable Input Monitoring for your DAW(s).

Trial and License Key Installation Instructions

To start a trial, install Big Talk Button. When you instantiate it, the Settings Window will automatically open. Click on the Online or Offline button underneath "Start a Trial", and enter a valid email address. An Online Trial will start immediately.

For an Offline Trial, follow the instructions in the popup window:

"Activation request generated successfully!"
"A file named 'ls_activation.req' has been saved to your Desktop."
"Next steps:"
"1. Type or copy & paste this into your browser: https://offline.licensespring.com"
"2. Upload the 'ls_activation.req' file and download the response"

"3. Click 'Load Response' below when ready"

Load the response file and your trial will begin.

To purchase a full license at any time during your Trial, click the "$39" button underneath "Buy a License", or visit www.bigtalkbuton.com to purchase a license there. Your purchase is safely and securely processed via FastSpring, and you will receive a license key code via email.

If you have purchased a perpetual license key, install Big Talk Button. When you instantiate it, the Settings Window will automatically open. Click the Online or Offline button underneath "Activate a License". For Online activation, paste your trial key in the window and click Activate.

For Offline activation, click the Offline button and follow the instructions on the popup window:

"Activation request generated successfully!"
"A file named 'ls_activation.req' has been saved to your Desktop."
"Next steps:"
"1. Type or copy & paste this into your browser: https://offline.licensespring.com"
"2. Upload the 'ls_activation.req' file and download the response"
"3. Click 'Load Response' below when ready"

Load the response file and your license will be activated.
